IBA Charitable Trust

Trust Chair: Julia Onslow-Cole

In 2006 the IBA set up the **Charitable Trust**, which replaced the IBA Educational Trust as our main UK Charity. The Charitable Trust has a broadened scope, covering amongst other things: education; human rights projects; and the provision of relief for lawyers experiencing hardship (such as those affected by the Asian Tsunami in 2004)

IBA Foundation Inc

Foundation President: Philip F Zeidman, Esq

The Foundation is a US-based charitable foundation, created in 1986 to engage in a wide variety of educational and charitable activities related to advancing the rule of law. While the Foundation was created by members of the International Bar Association, and works closely with the IBA and other organisations affiliated with the IBA, it is an independent entity whose mandate permits it to support a broad range of law-related undertakings.

In carrying out its mission, the Foundation interacts with the IBA, the Charitable Trust and supports other legally-related projects not associated with IBA programmes. The Foundation provides financial support for approved charitable projects, typically coupling it with the contribution of time and expertise by the Foundation and by individual IBA members.
